#### BOTTLE LABEL REQUIREMENTS

##### § 19.641 Certificate of label approval or exemption.

(a) *Requirement.* Proprietors are required by 27 CFR part 5 to obtain approval of labels, or exemption from label approval, for any label to be used on bottles of spirits for domestic use and shall exhibit evidence of label approval, or of exemption from label approval, on request of an appropriate TTB officer.

(b) *Cross reference.* For procedures regarding the issuance, denial and revocation of certificates of label approval and certificates of exemption from label approval, as well as appeal procedures, see Part 13 of this chapter.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1356, as amended (26 U.S.C. 5201))

[T.D. ATF-406, 64 FR 2134, Jan. 13, 1999]

##### § 19.642 Statements required on labels under an exemption from label approval.

All labels to be used on bottles of spirits for domestic use under an exemption from label approval shall contain the applicable information required in §§ 19.643 through 19.650. Where a statement of age or age and percent-age is required, it shall have the meaning given, and be stated in the manner provided in 27 CFR part 5.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1356, as amended (26 U.S.C. 5201))

##### § 19.643 Brand name, kind, alcohol content, and State of distillation.

(a) *Brand name and kind.* The label of distilled spirits shall state the brand name and kind, as set out in 27 CFR part 5.

(b) *Alcohol content*—(1) *Mandatory statement.* The label of distilled spirits shall state the alcohol content in percent-alcohol-by-volume. Products such

as “Rock and Rye” or similar products containing a significant amount of solid material shall state the alcohol content at the time of bottling as follows: “Bottled at \_\_\_\_\_ percent-alcohol-by-volume.”

(2) *Optional statement.* In addition, the label may also state the alcohol content in degrees of proof if this information appears in direct conjunction (i.e. with no intervening material) with the statement expressed in percent-alcohol-by-volume. If both forms of alcohol content are shown, the optional statement in degrees of proof shall be placed in parentheses, in brackets, or otherwise distinguished from the mandatory statement in percent-alcohol-by-volume to emphasize the fact that both expressions of alcohol content mean the same thing.

(c) *State of distillation*—(1) *Mandatory statement.* If a whisky produced in the United States was not produced in the State shown on the label, the label shall show the State of distillation, except as provided by paragraph (c)(2) or (c)(3) of this section. The appropriate TTB officer may, however, require the State of distillation to be shown on the label or permit such other labeling as may be necessary to preclude any misleading or deceptive impression which might otherwise be created as to the actual State of distillation.

(2) *Exceptions.* The State of distillation is not required to be shown on labels of “blended whisky”, “a blend of straight whiskies”, “spirit whisky”, “light whisky”, or “blended light whisky”. The State of distillation may be prohibited on certain labels of “light whisky” or “blended light whisky”, in accordance with paragraph (c)(3) of this section.

(3) *Prohibited statement.* The State of distillation may not be shown, except as part of the name and address required by 27 CFR 5.36(a), on labels of “light whisky” or “blended light whisky” produced in a State which the appropriate TTB officer finds to be associated by consumers with an American type whisky.
